The perfect complement to interactive whiteboard installations

Neets USB Switch 2
Easy swap between PC's connected to interactive boards and projectors

USB Switch 1 / 2 features:

Allows easy switching between a fixed main computer and a laptop

Use external button for switching computers, or allow automatic priority switching when second computer is connected

No software required

USB Switch 2 features:

Built-in Extender
Extends cable length up to 10 meters on each side of the switch

Power Switch Delay
Cuts power for 2 sec when switching between ports so the projector recognizes the change of source

USB Switch 1
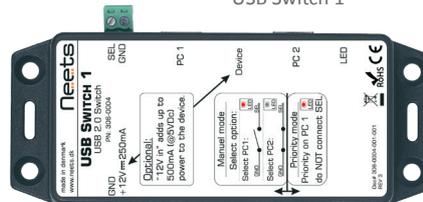

USB Switch 2
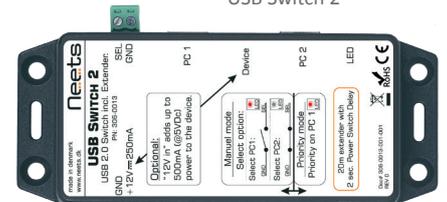

Interactive whiteboards and projectors are now used everywhere in modern classrooms and corporate boardrooms.

The whiteboards are USB connected to a main computer or labtop. However, if you wish to use an external laptop, connecting to the interactive board or projector can be troublesome.

Neets USB Switches solves the problem. Switch between two computers with a click on a Neets Control System button, or set the USB Switch to priority mode, making it select the latest USB connection present.
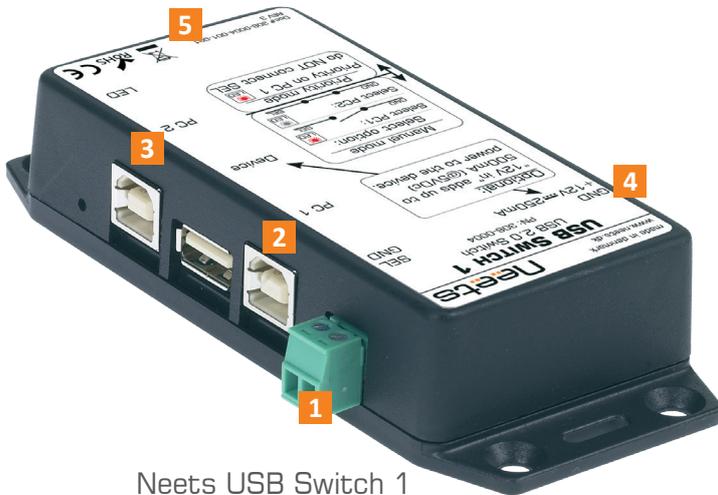

Neets USB Switch 1
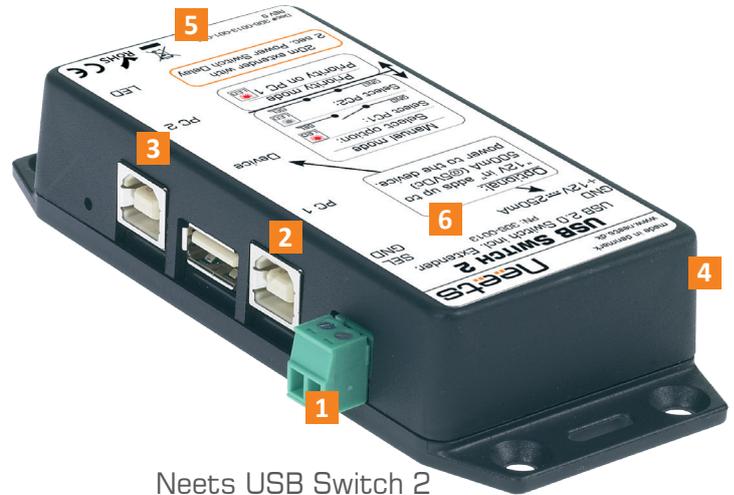

Neets USB Switch 2

Connections and features key:

1 External switch connector for manual mode

2 USB for computer 1

3 USB for computer 2

4 12 V auxiliary power input

5 Switch selects manual or auto priority mode

6 Extends 10m with 2 sec. Power Switch Delay

Technical specifications:

USB Switch 1 (306-0004):

USB connectors:
2 x USB "B" standard
(to computers)
1 x USB "A" standard
(to device)

USB standard:
Supports USB 2.0

Auxiliary power input:
12 VDC
Supplies 5 VDC @ 350 mA
to device

External connector
for manual mode:
Switches device to PC 2
USB with contact closure

Manual/priority switch:
Switches between manual
(external contact closure)
and auto priority (USB PC
2 connected)

Item number: 306 – 0004

USB Switch 2 (306-0013):

USB connectors:
2 x USB "B" standard
(to computers)
1 x USB "A" standard
(to device)

USB standard:
Supports USB 2.0

Auxiliary power input:
12 VDC
Supplies 5 VDC @ 350 mA
to device

External connector
for manual mode:
Switches device to PC 2
USB with contact closure

Manual/priority switch:
Switches between manual
(external contact closure)
and auto priority (USB PC
2 connected)

Extender & Power Switch Delay:
Extends cable length up
to 10 meters on each side
of the switch

2 sec. Power Switch Delay
- cuts power for 2 sec. when
switching between ports

Item number: 306 – 0004

Dimensions for both
USB Switches:

Width: 25 mm
Height: 125 mm
Depth: 70 mm

Weight:
90 g
