

CP45CF

Cover Frames for Connection Plates

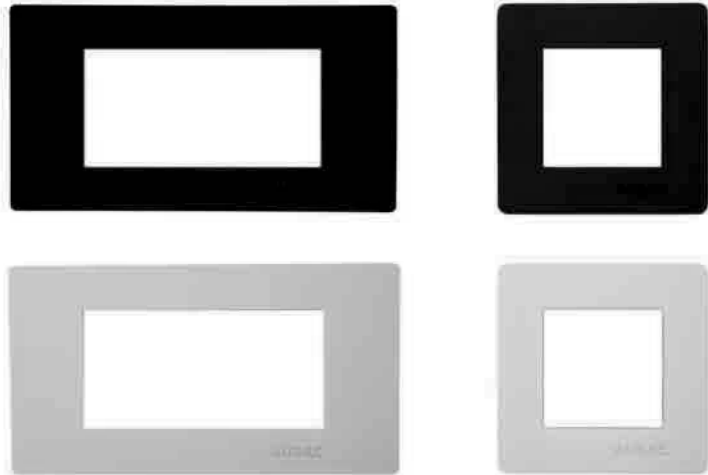

AUDAC

► Features

- Flexible system
- Compatible with Niko, Legrand or bTicino installation materials
- Slim design
- Blends beautifully into walls
- Easy installation

► Applications

- Private houses
- Industrial buildings
- Offices
- Bars
- Clubs
- Restaurants

The CP45CF1 and CP45CF2 are cover plates which are especially designed to be used in combination with the AUDAC CP45 connection plates, VC3036 Wall Volume Controllers and PC3000 Wall Program Selectors.

Besides this are they also compatible with all standard 45 x 45 mm installation materials, such as standard Niko and Legrand units.

The difference between the CP45CF1 and CP45CF2 are the number of units. The CP45CF1 is designed for one unit, while the CP45CF2 is designed for two units.

The cover plates contain a metal subframe and are available in two different colours, Black (/B) and White (/W), both with soft touch finishing.

Due to its slim and good looking design, they will blend into all kinds of different environments or interiors.
